How to Score the Self-Care Skills Assessment for Young Adults *(For Office Use Only)*

The purpose of the self-care skills assessment is to begin a discussion with young adults about health-related skills. Scoring is optional and can be used to follow individual progress on gaining these skills, not to predict successful outcomes.

This scoring sheet can be filled out to score a young adult’s completed self-care skills assessment or it can be used as a scoring guide to refer to when marking the score on their completed assessment.

Each response can be converted to a score of 0 (No), 1 (I want to learn), or 2 (Yes). Because not all young adults are taking medicines, numbers in “My Health & Health Care” and “My Medicines” should be calculated separately.
